FOR IMMEDIATE RELEASE

Caltrans to Extend Ramp Metering Hours on Westbound State Route 237

Santa Clara County – The California Department of Transportation (Caltrans) in partnership with Santa Clara Valley Transportation Authority (VTA), will extend ramp metering hours of operations on the westbound (WB) direction of SR-237 starting August 15, 2017, in Santa Clara County, from the West Calaveras Boulevard Interchange to the Lawrence Expressway Interchange, which includes the following on-ramps:

- WB SCL-237 / W. Calaveras Boulevard Diagonal On-ramp
- WB SCL-237 / McCarthy Boulevard Diagonal On-ramp
- WB SCL237 / Zanker Road Loop On-ramp
- WB SCL237/N. First Street Diagonal On-ramp
- WB SCL237/Great America Parkway Diagonal On-ramp
- WB SCL237/Lawrence Expressway Loop On-ramp
- WB SCL237/Lawrence Expressway Diagonal On-ramp

The extended hours of ramp metering operations is expected to help alleviate late-morning congestion on the WB SR-237 corridor.

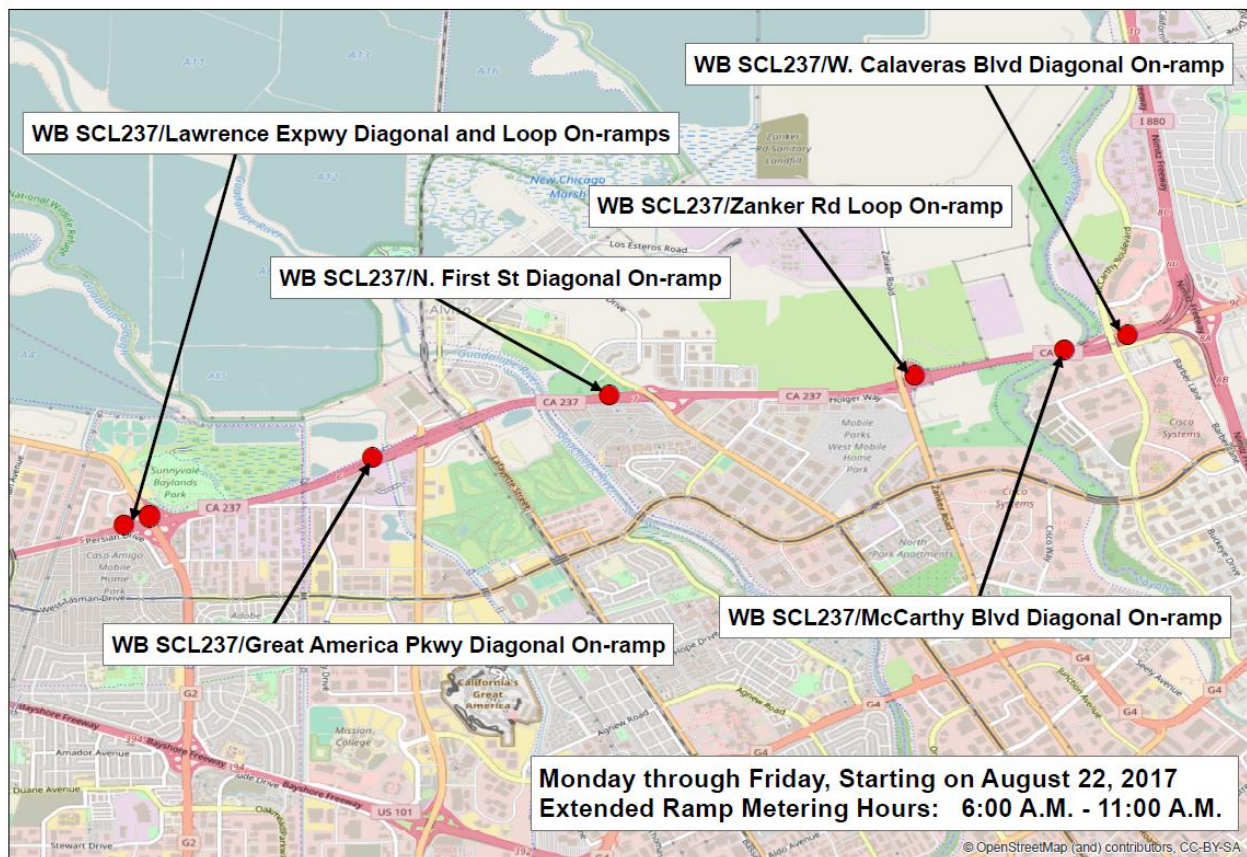

Ramp metering hours in the WB direction will be extended in the morning peak period from currently 6:00 AM – 10:00 AM to 6:00 AM – 11:00 AM (Monday through Friday). During this first week, the meters will be set to solid green in the extended hour. The meters will then begin metering in the extended hour on August 22, 2017.

Freeway on-ramp locations in late-morning hours could experience delays during the first few days. Caltrans will monitor the metered on-ramps and make adjustments as we fine-tune the metering operations. The ramp meter information phone number is (510) 286-4531.
